

Our staff is one of our most valuable assets at Davco. They are highly skilled and committed to delivering top quality and service to all our customers. In addition to getting the job done, they are always looking for ways to make improvements which can result in either a better solution or substantial savings for our customers or both.

To combat current workforce challenges, Davco has incorporated internal training and numerous retention initiatives to ensure quality workmanship in everything we do. Recently Davco was recognized for these efforts.

In October of 2006 Davco was recognized by the Grande Prairie & District Chamber of Commerce for our employee retention strategies with the Best Practice Award.

In February of 2007 Davco Solutions Inc. was recognized by the Alberta Chamber of Commerce with The Employer of Youth Business Award of Distinction for demonstrating outstanding achievement in hiring youth and providing them with career oriented opportunities.
